

PE and Sport Premium Expenditure 2022/23

The PE and Sport Premium is an amount of money allocated to schools to improve the quality and breadth of PE and sport provision.

The 5 key areas that Larchwood is focusing on are:

- the engagement of all pupils in regular physical activity
- the profile of PE and sport is raised across the school
- increased confidence, knowledge and skills of all staff in teaching PE and sport
- broader experience of a range of sports and activities offered to all pupils
- increased participation in competitive sport

In **2022/23** we received a **£19,520 grant** and we spent this funding on the following provisions. They were supplemented by our delegated budget thus ensuring that we supported all of our pupils, so they continue to develop healthy, active lifestyles and increase their participation and enjoyment in PE and sport.

Overall Impact

The overall impact this year of the PE and Sport Premium continued to be significant as we continued to recover from the impact of Coronavirus restrictions and lockdowns. However, despite this, we have seen increased sporting provision in clubs and higher participation. We have become more competitive at inter school competitions, winning the district Hockey. There has been an increase in the amount of sporting activity at lunchtime when children are outside due to the increased amount of resources. The additional resources we have purchased have meant more sports have been taught and children are getting better access to different sports.

Sustainability

The school plans to continue to renew its sporting equipment and resources each year to provide children with a variety of opportunities. The improvements in the teaching of PE and in participation rates will continue as we participate in further competitions across the SSP.
